

# THANK YOU

Dear Board & Club Members,

The Deschutes River Conservancy would like to directly thank you for your generous support of our work in Trout Creek - critical habitat for anadromous fish. At a time when our wild salmon and steelhead need all the help they can get, you answered the call.

With the funds you've helped raise, we will be able to make a real and immediate positive impact on the health of our fisheries.

We take great pride in the work we do to restore our basin and are honored that you entrusted us to carry on that work. We are so grateful to have found partners who share our passion for thoughtful and lasting conservation.

Sincerely,

The DRC Team
